

## Restricted Entry Intervals for Pesticide

In accordance with regulation 13.23 of the Health and Safety (Hazardous Substances) Regulations 2017, and under delegated authority by WorkSafe New Zealand, I, **Richard Steel**, being satisfied that:

- (a) the human exposure to the substance is primarily through inhalation or contact with the skin; and
- (b) scientific data available for the substance is significantly reliable to enable a restricted entry interval to be set;

set the following restricted entry intervals for a pesticide to protect persons from the toxic effects of the substance:

**Substance:** Luna Sensation

**Approval Number:** HSR100998

**Restricted entry interval(s):** 1 day for stone fruit

**Substance:** Luna Privilege

**Approval Number:** HSR100746

**Restricted entry interval(s):** 13 days for greenhouse use on fruiting vegetables

Dated at **Wellington** this 5<sup>th</sup> day of November **2018**.

Richard Steel, Acting Manager Technical Programmes and Support, WorkSafe New Zealand.
